Description:

This luxurious bed linen distinguishes itself through its delicate natural fibre and therefore requires special care.

Care instructions for Lyocell Tencel® bedlinen:

Turn the bedlinen **inside out** before washing and **close** the **zipper!**

Use **liquid, mild detergent** for washing wool or silk (e.g. Woolite or Coral wool & silk)

Choose **care programme** (reduced spin) with maximum 60C/140F.

Micro-Tencel® bed linen can be tumble dried at low temperatures, however we recommended to **air dry** to reduce wear and tear.

While **ironing** use **slight pressure** and **low temperature** to avoid fibre damage.

Don't bleach or **dry-clean** the Micro-Tencel® bedlinen!

**Following the above points will maximise the durability
of our unique bedlinen products**
